PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering student and Senior Lead Data Analyst who bridges deep technical execution and management expertise, progressing from Data Analyst Intern to Senior Lead Data Analyst in 4 months. Combines robust coding capabilities in Python and SQL with strong UX design, data visualization (Power BI/Tableau), and comprehensive end-to-end project documentation. Proven track record of translating complex client requirements into technical specifications, architecting data workflows, and leading cross-functional teams to 100% on-time delivery. Equally equipped for technical software/data roles and strategic management positions, backed by 30+ shipped projects and 65+ certifications.

EXPERIENCE

Machine Learning & AI Intern, Skill Nexis
Aug 2026 - Present

- Delivering real-world ML projects against defined deadlines, applying core machine learning workflows alongside a peer intern cohort.

Artificial Intelligence Intern, Codec Technologies
Aug 2026 - Present

- Executing assigned AI projects under a dedicated project head at a consultancy operating across 27+ countries, with weekly project reviews.

Senior Lead Data Analyst, UpToSkills
Dec 2025 - Mar 2026

- Promoted from Data Analyst Intern to Team Lead to Senior Lead Data Analyst in 4 months, managing cross-functional teams across concurrent ML projects.
- Defined team OKRs and ran sprint reviews, achieving 100% on-time delivery; standardized Python EDA pipelines adopted by a 15+ intern cohort.

Lead Product Designer & UX Strategist, Andaman Dream Yatra
Apr 2025 - Sep 2025

- Led client consultations and audience research, using Power BI dashboards to validate design directions.
- Authored PRDs, wireframes and feature specifications; prototyped with AI-assisted tools and directed final UI/UX to client sign-off.

Operations Manager, Dweep Packers & Movers
Jul 2024 - Nov 2024

- Oversaw operational workflows, account reconciliation and stakeholder communication; authored SOPs and documentation for internal bookkeeping.

Business Analyst, PSN Shipping Agency
Mar 2024 - Jun 2024

- Bridged technical teams and executive management through data reporting and presentations; analyzed cargo and shipment data to pinpoint revenue leakage.

SELECTED PROJECTS

Interactive E-Commerce Sales & Customer Insights Dashboard

- Designed and deployed an interactive Streamlit dashboard analyzing revenue trends across 10,000+ customer transaction records, using SQL window functions and aggregation queries to surface top product categories and regional sales metrics.

  Tech Stack: Python (Pandas), Streamlit, Power BI, SQL

End-to-End Customer Churn Prediction Web App

- Built and deployed an end-to-end machine learning web app predicting customer churn with 82%+ accuracy using Scikit-Learn and Streamlit, engineering tenure and contract features and serving real-time inference.

  Tech Stack: Python, Scikit-Learn, Streamlit, Hugging Face Spaces

Automated Data Quality & Cleaning Pipeline Script

- Developed an automated Python validation script that detects duplicates, handles missing values and flags anomalies, converting raw CSV datasets into cleaned files with an HTML summary report and reducing manual cleaning time.

  Tech Stack: Python, Pandas, SQLAlchemy

Product Requirements Document & Metric Framework for an AI Feature

- Authored a 2-page PRD for an AI-driven automation feature covering user personas, user stories and acceptance criteria, with Figma wireframes and a metrics framework of North Star, activation and guardrail metrics.

  Tech Stack: Notion, Google Docs, Figma, Whimsical

Agile Project Board & Work Breakdown Structure

- Structured a 3-sprint Agile roadmap in GitHub Projects, managing a backlog of 15-20 cards across epics, user stories and acceptance criteria, with story point estimation and dependency tracking.

  Tech Stack: GitHub Projects, Jira, Trello

EDUCATION

B.Tech, Computer Science Engineering, Dr. B.R. Ambedkar Institute of Technology, Sri Vijaya Puram
Nov 2024 - Present | GPA: 8.33/10

Senior Secondary (PCM + Computer Science), St. Mary's Senior Secondary School
May 2022 | 91%

TECHNICAL SKILLS

- **Languages & Core:** Python, Java, SQL
- **Data Analysis & Visualization:** Pandas, NumPy, Exploratory Data Analysis (EDA), Statistical Modeling, Power BI, Tableau, Matplotlib, Seaborn
- **Engineering & Development:** Git, REST APIs, Streamlit, Scikit-Learn, SQLAlchemy, Workflow Automation, Code Quality Standards
- **Management & Operations:** Cross-Functional Leadership, Agile/Sprint Planning, OKR Execution, Stakeholder Management, Process Standardization
- **Documentation & Communication:** End-to-End Technical Documentation, Product Requirement Documents (PRDs), Client Requirement Translation, SOP Writing
- **Product & Project Management Tools:** Jira, GitHub Projects, Trello, Notion, Figma, Whimsical
- **Certifications (65+):** Google Advanced Data Analytics, Google Generative AI, Deloitte Data Analytics Simulation, Meta JavaScript Programming, Google Cybersecurity Professional, 2nd Place Data Science League (All India)
